by eugene don and a great selection of similar new used and collectible books Schaum's Outline of Mathematica, 2ed  
(Schaum's Outlines):

7 of 7 review helpful Excellent For Beginners By Optiker I was just starting out with Mathematica and was not getting  
very far with the online videos offered by Wolfram and independents This is the book that really got me going There

are other books but they are fairly expensive This book covers all the basics very efficiently The criticism made by other reviewers that it is out of date is in my opinion overstated Tough Test Questions Missed Lectures Not Enough Time Fortunately for you there s Schaum s Outlines More than 40 million students have trusted Schaum s to help them succeed in the classroom and on exams Schaum s is the key to faster learning and higher grades in every subject Each Outline presents all the essential course information in an easy to follow topic by topic format You also get hundreds of examples solved problems and practice exerc From the Back Cover About the Author Eugene Don Coram NY is Professor of Mathematics at Queens College of the City University of New York
