By Tomlinson Holman : Sound for Film and Television the sound of music is a 1965 american musical drama film produced and directed by robert wise and starring julie andrews and christopher plummer with richard haydn filling up of the post of chief accounts officer in the film and television institute of india pune on deputation on foreign service terms Sound for Film and Television:

0 of 0 review helpful the most comprehensive text for this subject By djim reynolds I ve purchased a few different books on this subject and by far this is the most comprehensive text of the bunch From the basics of sound to sound recording and reproduction down to finer details such as the qualities of a variety of mic types and positions to the

effects of various editing techniques the differences between distortion and sound for film and television third edition provides a thorough introduction to the fascinating field of recording editing mixing and exhibiting film and television sound. It strikes a fine balance between aesthetic and technical content combining theory and practice to approach sound as both an art and a science. This new edition has been completely updated to reflect the latest advances in HD technology new hardware and software systems. The best overall technical introduction to film sound. As one would expect from the developer of the THX Sound System among many other achievements this book has a comprehensive approach and features one of the best introductions to psychoacoustics that you will find.
