Translation's Forgotten History investigates the meanings and functions that translation generated for modern national literatures during their formative period and reconsiders literature as part of a dynamic translational process of negotiating foreign values. By examining the triadic literary and cultural relations among Russia, Japan, and colonial Korea and revealing a shared sensibility and literary experience in East Asia which referred to Russia as a Translation's Forgotten History powerfully unpacks the overlooked translation and retranslation regimes central to the formation of modern Korean literature in the early twentieth century. Offering a rich translational analysis of movements among
