Washington had written 110 rules of civility and decent behavior at the age of fourteen. Although these guidelines are more than 250 years old, they are still relevant in today's society. By George Mr. Washington's Guide to Civility Today presents the 110 rules with engaging and conversational commentary after each rule describing how it can be applied in modern life. About the Author: Steven Selzer has been in private law practice in Montgomery County, Maryland, for 25 years. He has campaigned to increase civil behavior in the legal profession and is a staunch advocate of civility. He is a graduate of George Washington University.
