2 of 2 review helpful A most effective way to learn spoken language By csbrown I find the Pimsleur approach unique and effective especially for Vietnamese The emphasis is on learning to listen and to speak the sounds you hear without the written word as an intermediary reference This disappointed me at first but because Vietnamese is a tonal language I came to see the importance of not relying on written word symbols The Pimsleur reg Method the easiest fastest way to learn a new language Completely portable easily downloadable and lots of fun You rsquo ll be speaking and

understanding in no time flat This course includes Lessons 1-10 from the Vietnamese Level 1 Program 5 hours of audio only effective language learning with real life spoken practice sessions Get a chance to test drive the incredibly effective and efficient world famous Pimsleur Program Each Pimsleur programs provide plenty of positive reinforcement that will keep learners on track and we found that Pimsleur gave us more proficiency and confidence in speaking the new language than any of the other language programs we reviewed AudioFile
