By Mr. Lawrence Harte : Introduction to Cable Television (CATV) 2nd Edition: Analog and Digital Television and Modems Introduction to Cable Television (CATV) 2nd Edition: Analog and Digital Television and Modems:

2 of 2 review helpful Good for a quick overview By Justanotherreader I am researching the television industry and I

think this is a good book to get an overview of the cable end of the business This is the second book of Lawrence Harte that I have read and what I like about him is his simple precise explanation of technology concepts Excellent for people like me without an telecommunications or broadcast background This book explains the fundamentals of cable television systems the equipment they use what services they can offer and how cable television fits and compares with other broadcast technologies Cable television CATV is a television distribution system that uses a network of cables to deliver multiple video data and audio channels This book provides an overview of cable television system technology including cable modems digital television high definition televi About the Author LAWRENCE HARTE is the president of APDG a provider of expert information to the telecommunications market Mr Harte has over 23 years of experience in the electronics industry including company leadership product management development m
