20 of 20 review helpful classic work great text wonderful commentary By Markos The Symposium is one of the greatest things ever written in any language Steadman gives us a nice large font He reprints the Oxford Classic Text but he blows it up His text is about 75 bigger than the Loeb texts which makes a huge difference in the pleasure of reading the Greek This does occasionally leave the text a little blurry Facing each of the 72 pages of John Burnet's Greek edition of Plato's Symposium originally published by Oxford University Press in 1905 is a single page of corresponding vocabulary and intermediate level grammatical commentary Once readers have memorized the core vocabulary list they will be able to read the classical Greek and consult all relevant vocabulary and commentary without turning the page About the Author Geoffrey Steadman Ph D Classics currently teaches Latin and Greek in Knoxville Tennessee
