12 of 12 review helpful One step forward two steps backwards By Jessie Carduner I learned from the 2nd edition this summer and loved it It was very systematic and rigorous Now I am continuing to study on my own and decided to purchase the 3rd edition so that I could also use the e book which is not available for the 2nd ed The 3rd edition has added information about dialects which is nice to a point but cutting some M the learning experience offered by this last edition is much more authentic and insightful MELA Notepad a practical textbook well suited for Arabic teaching and learning MELA Notepad There is much to like here
