By Douglas Robinson : Exorcising Translation: Towards an Intercivilizational Turn (Literatures, Cultures, Translation)

Exorcising Translation: Towards an Intercivilizational Turn (Literatures, Cultures, Translation):

Exorcising Translation a new volume in Bloomsbury's Literatures Cultures Translation series makes critical contributions to translation as well as to comparative and postcolonial literary studies. The hot button issue of Eurocentrism in translation studies has roiled the discipline in the past few years with critiques followed by defenses and defenses followed by enhanced critiques. Douglas Robinson identifies Eurocentrism in translation studies as Exorcising Translation is a cogent and innovative problematisation of the unnecessarily inevitable and highly influential dichotomy that confronts universalist and relativist ideologies in translation studies in theory and in comparative cultural studies.
