(Norwegian Edition):

12 of 12 review helpful Good little book By Nick This little phrase book covers all the situations I can envisage coming across when I move to Norway later this year It includes the basic greetings numbers and questions as well as some more detailed conversation pieces The book also comes with a useful and comprehensive pronunciation guide which is indispensable for a language that differs between the written to spoke A fresh crisp new design re launches this perennial bestseller More user friendly thanks to improved color coding and new categories and with user generated content this is the phrase book created by the people for the people
