2 of 2 review helpful Fantastico By Grace Rostoker I love this CD and this method of learning a language Words and phrases are repeated against a background of catchy music and the learning part just takes care of itself I found that after playing the CD a few times I no longer needed to listen consciously to it it could play while I was busy doing something else and I still got the benefit even finding that I spoke Earworms plants more than 200 essential words and phrases into long term memory ready for instant recall Simply listen to the music CD filled with rhythmic repetitions a few times and the sound patterns will get to deeper levels of memory Listeners will subconsciously acquire a collection of verbs nouns and connecting words all the while picking up the correct accent
