An Integrated Course in Elementary Japanese:

258 of 266 review helpful One of my favorite textbooks of all time By ZC I moved to Japan about 10 months ago and I needed a textbook to learn the language I settled on the second edition of Genki and I couldn't be happier with the decision Working your way through the textbook and workbook require a lot of time and dedication That's true of any

textbook but with Genki it's even more so because the authors don't hold Second edition of the most highly regarded teaching text book on the Japanese language covering speaking listening reading and writing to cultivate overall language ability Each lesson in the revised edition features a new section dubbed Culture Notes and now includes the audio CD companion which is in mp3 format ready to install on any music player In Japanese English Distributed by Tsai Fong Books Inc
