5 of 5 review helpful Go for it By Kitt McComb If you want to learn Japanese and learn it well this is the book to use Every section uses different persons speaking Japanese and not English forcing one to listen and to be prepared for something new The lessons are varied with just enough drill to learn yet not get bored This book will not waste your money nor your time 1 of 1 review helpful Second edition of the most highly regarded teaching text book on the Japanese language This is the companion workbook to the text In Japanese English Distributed by Tsai Fong Books Inc
