1 of 1 review helpful I find the series a very good companion book s to study along with a course that By Rashad Abdul Azeem This book is not for the beginner looking to learn Arabic because it is only in Arabic although the vocabulary is light there are no grammar rules explained grammar rules are given but not explained Nouns pronouns prepositions are given in examples and one could intuitively pick it up bu This three part course in Modern Standard Arabic for non native speakers approaches the language through a series of themed topics daily life in the Arab world politics and governance literature and the arts science and medicine astronomy concentrates principally on listening and speaking skills In each section voabulary is built up as various linguistic structures and strategies are introduced and practiced in a clear introduction to Arabic grammar A CD acc About the Author El Said Badawi is professor in the Arabic Language Institute at the American University in Cairo He is the coauthor of A Dictionary of Egyptian Arabic
